

# Jordan Outdoor Energy Storage Power Company

Is battery energy storage possible in Jordan?

In response to this, Fichtner in collaboration with the Jordanian Ministry of Energy and the transmission system operator, NEPCO, has analyzed the potential for battery energy storage and, in the role of Transaction Advisor, is providing support for implementing a pilot project.

Why did Jordan develop a small Solar Utility?

We developed Jordan's first most price-competitive small solar utility along with keeping market needed requirements.

Since then, we lowered levelized cost of energy through value engineering, operational research and efficient financial strategy to deliver cost-efficient energy for our customers.

Where is Jordan located?

Jordan, the land of the peace and outlandings, situated in the middle of the world in very strategic location that is significantly connecting the south with the north with no less importance to connect the east with the west.

Off-grid solar systems offer a sustainable and reliable energy solution for Jordan, especially in remote and underserved areas.
