When was the Baiune power station built?

Our Lower Baiune power station was built in 1932 and still operates at nameplate capacity.

The Upper Baiune power station was recommissioned in 1947 but was destroyed by fire and totally rebuilt by PNGFP in 1985.

PNGFP operates as the power supply authority in Bulolo, supplying power to local businesses and domestic consumers.

What is the Katuvavini power station?

In January 2013, PNGFP commissioned the Katuvavini 9.4MW power station at Upper Baiune. Designed to supply power to the Ramugid, it is the first hydro power station built by an IPP for the sole purpose of supplying power to PNG Power Limited.

What happened to upper Baiune power station?

The Upper Baiune power station was recommissioned in 1947 but was destroyed by fire and totally rebuilt by PNGFP in 1985.

PNGFP operates as the power supply authority in Bulolo, supplying power to local businesses and domestic consumers.

In January 2013, PNGFP commissioned the Katuvavini 9.4MW power station at Upper Baiune.
