

Station de base 5G Huawei de China Communications

How much will Huawei buy China mobile's 5G base station?

Huawei secured 52 per cent of China Mobile's 5G base station work, the largest portion of the contracts put out for tender this year.

The deal would involve the sale of 45,426 5G base stations worth about 4.1 billion yuan (US\$574 million), according to calculations by the South China Morning Post using bid details published by China Mobile.

How many 5G base stations did Huawei secure?

Huawei is estimated to have secured 45,426 5G base stations worth an estimated 4.1 billion yuan (US\$574 million).

Huawei wasn't the only Chinese vendor to win a sizeable chunk of the tender, with ZTE the second-largest winner with around 26 percent of the contract, equivalent to 23,227 5G base stations.

How many 5G base stations will China have in 2023?

The successful firms were announced last Friday, about a month after China Mobile solicited equipment suppliers to bid for two contracts for the installation of a total of 86,980 5G base stations between 2023 and 2024, adding to China's existing 5G network, considered the world's largest.

Who makes 5G in China?

A paid subscription is required for full access.

As of 2023, 58 percent of all 5G base stations in China had been manufactured by Huawei.

Its closest competitor was ZTE with a market share of 31 percent.

Both telecom manufacturers have maintained a similar market share throughout all bidding rounds since 2020.

Which telco will supply 5G base stations in 2023 & 2024?

Huawei Technologies has secured a major contract that will see it supply over half of the 5G base stations for telco China Mobile between 2023 and 2024.

In total, Huawei has won 52 percent of China Mobile's 5G base station work, as part of the largest portion of the contracts put out for tender this year, according to Yicai Global.

Who won a 5G contract in China?

Huawei wasn't the only Chinese vendor to win a sizeable chunk of the tender, with ZTE the second-largest winner with around 26 percent of the contract, equivalent to 23,227 5G base stations.

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell.
